

**REISSUE APPLICATION DECLARATION AND
POWER OF ATTORNEY BY THE INVENTOR**ATTORNEY DOCKET NO. 10960502-1

As a below named inventor, I hereby declare that:

My residence/post office address and citizenship are as stated below next to my name;

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed in patent number 5,998,786, granted Dec 7, 1999, and for which a reissue patent is sought on the invention entitled:

Apparatus For Securing CCD Board At A Fixed Position Within A Range Of Motion

the specification of which is attached hereto unless the following box is checked:

() was filed on _____ as US reissue application number _____
and was amended on _____ (if applicable).

I hereby state that I have reviewed and understood the contents of the above-identified specification, including the claims, as amended by any amendment(s) referred to above. I acknowledge the duty to disclose all information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below.

- ☐ By reason of a defective specification or drawing.
☒ By reason of the patentee claiming more or less than he had the right to claim in the patent.
☐ By reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation to as to the nature of the broadening:

I believe the original patent, upon which this Reissue Application is based, is wholly or partly inoperative by my claiming less than I had a right to claim in the patent. The reason for such belief is that newly presented claims 24, 25 and 26 are allowable over the prior art of record and meet all requirements under 35 U.S.C. but were not included in the original patent. I do not believe I am attempting to recapture subject matter given up during my previous prosecution.

The error in claims 1, 13 and 20 was including an element expressed as a "compliant apparatus", which subjects claims 1, 13 and 20 to too narrow an interpretation. New claims 24, 25 and 26 submitted hereby recites some of the same language of claims 1, 13, and 20, respectively, but omits the element expressed as a "compliant apparatus". I believe that, because claims 1, 13, 20 may be subject to such a narrow interpretation, I claimed less than I had a right to claim.

I respectfully submit that the above-described errors support my right to present claims 24, 25, and 26 in the Reissue Application. The above discussion in no way should be taken to mean that I believe claims 1-23 to be invalid. Since my original patent is in error, in that I claimed less than I am entitled to claim and since all requirements for obtaining a reissue patent containing the reissue claims have been met, I respectfully request that a reissue patent containing reissue claims 1-26 be issued.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant. As a named inventor, I hereby appoint the following attorneys and/or agents to prosecute this application and transact all business in the United States Patent and Trademark Office connected therewith.
